EXECUTIVE SUMMARY

Forward Deployed AI Lead with 15+ years embedding directly with executives and delivery teams to ship real, production AI systems—not demos. Specializes in rapid AI prototyping → hardened delivery, multi agent workflows, and enterprise Copilot experiences. Consistently delivers measurable business outcomes within 30–60 days.

FORWARD DEPLOYED AI STRENGTHS

Applied AI Delivery

Executive Embedding • Rapid Prototyping • Production Hardening • Stakeholder Alignment • Outcome Ownership

LLMs & Agents

Multi Agent Systems • RAG (Hybrid Retrieval) • Tool Calling • Prompt Engineering • Vector Search

Production & Operations

Evaluations • Guardrails • Observability • SOC 2 Readiness • Latency & Cost Optimization

PROFESSIONAL EXPERIENCE

NAITIVE AI — Principal AI Engineer / Forward Deployed Lead

2024 – Present

Embedded with executive sponsors to identify, build, and deploy high ROI AI systems in production.

- Partnered with C level stakeholders to scope and deliver AI solutions in weeks, not quarters

- Delivered SOC 2 compliant AI platforms

- ↓ cycle time 44%, ↓ operational toil 35%

- Built “Lucy,” a domain specific AI agent embedded in Dynamics 365

- ↓ handle time 28%, ↓ escalations 18%

- Deployed Copilot style AI assistance directly into CRM workflows

- ↑ time to answer 32%, ↑ decision throughput 22%

- Orchestrated multi agent planner/worker workflows integrated with Dynamics, Twilio, and banking APIs

- o ↑ straight through automation 27%, ↓ back office handling 37%

- Implemented evaluation, tracing, and guardrails to safely scale usage in regulated environments

- Owned end to end outcomes (architecture, build, deployment, reliability) across 50+ clients

Trusted Tech Team — Director of Cloud Services

Sep 2023 – Apr 2024

- Delivered AI enabled automation removing 420+ hours/year of operational overhead

- Improved delivery velocity and execution consistency through standardization

Computacenter — Cloud Solutions Director

Jan 2022 – Sep 2023

- Led customer facing Azure modernization initiatives

- Balanced speed, security, and governance across large enterprise portfolios

EPAM — Director, Cloud Solutions

Nov 2020 – Dec 2021

- Led PoCs and applied AI modernization initiatives

- Increased stakeholder confidence through working, production aligned implementations

Microsoft — Senior Cloud Solutions Architect

Dec 2017 – Nov 2020

- Partnered directly with customer engineering and security teams to modernize workloads at scale

Dell Technologies — Advisory Cloud Architect

Jun 2016 – Dec 2017

- Led hybrid cloud integrations improving reliability and reducing cost

FusionStorm — Practice Manager / Lead Principal Systems Engineer

2010 – 2016

- Built and led delivery teams executing complex enterprise infrastructure programs

Eclipsys — Systems Engineer

2007 – 2010

- Supported healthcare infrastructure modernization with strict uptime requirements

EDUCATION & CERTIFICATIONS

B.S., Computer Science — Colorado Technical University

Microsoft Certified: Azure Solutions Architect Expert

Awards: President's Club — FusionStorm (2013, 2014, 2015)
